22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. The experience of fifteen years practice—an extensive collection of rare works, documents, decisions &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment.

Kirkbride's Tattersall's
HEAVE POWDERS;

A SAFE SPEEDY AND PERMANENT CURE for *Heaves, Broken Wind, Chronic Cough, Colds,* and all diseases which depend upon inflammation of the lungs, ... of the ... restoring the **Soundness of the Animal's Wind.**

This remedy which has been used with such remarkable success in England is now offered to Horse owners in the United States as a positive specific for those distressing and ... complaints. ... the ... of ... and at the same time ... is ... and ... The following ... amongst many proofs we have of its efficacy. It is from one of the first Farriers in New York, and a gentleman whose knowledge in the medical treatment of Horses is very extensive.

New York Nov 1 1847

Messrs A H Gough & Co

Gentlemen—You will recollect that I bought a pack ago of your Heave Powders some time ago ... for a valuable horse at my livery in my stables, and that I was quite doubtful of the wisdom of attempting to cure such a bad case as his was, and did not in fact believe there were any medicines helped for his complaint. ... I had been in the habit of using ... for ... a ... and ... to you and your valuable remedy, ... that the single package cured the animal of an aggravated case. Heaves as I ever saw, and his wind is now perfectly good. I believe the cure is permanent also.

Respectfully, Ed FLOYD, 102 Laurence-st

Messrs A H Gough & Co—Gents: I bought about six weeks ago a package of Heave Powders to administer to a favorite horse who had been troubled with heaves for more than two years. His case was a very bad one, and so severe as to incapacitate him from half his usual labor, as I had resisted all the remedies ordinarily used for this disorder, these had no effect but to slightly diminish the violence of the heaving while taking the medicine; but that package of your remedy has completely eradicated the disease, and now his wind is as good as ever. It is a month since he has taken the Powders and ... warrant him sound.

Respectfully, GEO W DAVIS
Monroe, Middlesex Co, N J

GREAT CONDITION MEDICINE.

Besides their specific action on diseases of the lungs and windpipe, the Tattersall's Heave Powders, from their great alterative and restorative properties, are as effectual in horses as sarsaparilla proves to be in the human race for the removal of impurities of the blood and predisposition to disease. Many a drop of founder has been prevented and cured by a few doses of the Heave Powders, when thrown into the feed that is given to the heated animal after a hard drive or exposure to inclement weather. They are warranted to cure the worst cough in a few days, and will wholly eradicate a recent cold by the use of 1 or 2 doses. As a condition medicine they are unequalled, especially when a tight hide, staring coat, loss of appetite, etc. denote a derangement of the digestive functions or existence of botts and worms in the alimentary canal, as described in the following certificate.

Messrs. A H Gough & Co—That package of your Heave Powders that I bought of you for my horse's cough has entirely cured him, but in a different way than I expected. The first dose of Expectorant Powder that I administered brought away an immense number of worms from him, and I believe they were the cause of the cough, rough coat, etc., which he exhibited. For that package has entirely cured him; his appetite is good, and he is now in prime condition. I cheerfully recommend your Heave Powders for worms as well as heaves. Yours SAM'L ROBERTS.
East Hempstead, L I, Oct 26, 1847

CAUTION. As several imitations of this valuable and popular remedy are already being put up under the name of "Heave Cure," "Heave Compound," &c., persons are cautioned to be aware of them, and to buy no remedy but *Kirkbride's "Tattersall's Heave Powder."*

No Stable should be without this potent preservative. Price $1 per package of sufficient to cure an ordinary case, 6 for 5 dolls.

Sold by A H Gough & Co., 149 Fulton st., New York; & W. Fowle, Boston; and by Druggists generally throughout the United States.

DR. CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these, others of vegetable origin are combined, designed to render them more active, and consequently more immediately effective.

The Dock, or rather a species of it, now ranks as a medicinal plant second to none of the vegetable kingdom. With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound, he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound, and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony, and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on, and least liable to decomposition, is procured by subjecting the root to the action of the menstruum usually employed in extracting its virtues, for a long time, without heat or any other accelerating agent. None is permitted to be used in the compound that has not been obtained by this process, and that has been less than a year in preparation.

The Compound is recommended for Scrofula, Erysipelas, Ulcerous affections, Eruptions and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers, and other abuses of the constitution, among which are Neuralgia, Piles, Affections of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In cases of various chronic complaints with which the proprietor became familiar in his practice in Hampden many years since, he compound will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

Prepared only by Dr Stephen Cummings and sold at wholesale and retail by Joshua Burgin & Co, No. 113 Middle street, and Edward Mason, No 153 Middle street—only agents for Portland.

PHYSICAL BITTERS,
At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine universally approved by Physicians as a safe, speedy, and effectual remedy for *Scrofulous, Mercurial and Cutaneous Diseases*; Jaundice, Indigestion, Dyspepsia, Bilious disorders, Liver Complaints, Costiveness, Weak and Sore Stomach, Ulcers and Running Sores, *Swelling of the Limbs*, Pain in the Bones, Tumors in the throat, Rheumatic affections, Salt rheum, Erysipelas, *Bad Humors*, Eruptions on the face or body, Cancerous sores, King's Evil, Chronic Catarrh, languor, debility, headache, dizziness, sallow complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired.

It is highly concentrated, entirely vegetable, and very finely flavored to the taste. The change which it produces in the condition and tendency of the system is speedy and permanent.

The above Periodicals are reprinted in New York immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—Blackwood's Magazine being an exact *fac simile* of the Edinburgh edition.

They embrace the views of the three great parties in England—Tory, Whig and Radical—Blackwood and the London Quarterly are Tory; the Edinburgh Review Whig, and the Westminster Review Radical. The North British Review is more of a religious character, having been originally edited by Dr Chalmers, and now, since his death, being conducted by his son-in-law, Dr Hanna, associated with Sir David Brewster. Its literary character is of the very highest order.

Whig and Courier.

John S. Sayward—Editor.

FRIDAY, MARCH 31, 1848.

☞ We occupy a large portion of our paper to-day with matters of high interest [illegible] the present time relative to the great revolution in France. Monarchy is undoubtedly dead in that country. Henceforth that people will maintain a republican form of government, and as far from their not being prepared for freedom, we are of opinion that they are prepared for maintaining a republican system [illegible] a higher [illegible] than our own. [illegible] in their movement [illegible] noble idea of humanity, and a determination [illegible] organize society [illegible] the ground [illegible] of mutual relation and of mutual service than has yet been recognized in the practice of any government on the earth. All the movements the transition of a great people from a monarchy to a free Republic [illegible] of interest and [illegible] our readers will regret the space we allot to the matter but rather wish for even more of these [illegible] facts.

Further Intelligence from EUROPE.

REPUBLIC ANNOUNCED!

The Republic was officially announced, Feby 26th by M. de Lamartine surrounded by the other members of the Provisional Government and the four secretaries. M. de Lamartine descended the steps of the Hotel de Ville, and presenting himself in front of the edifice with a paper in his hand, thus expressed himself:

Citizens—

The Provisional Government of the Republic has called upon the people to witness its gratitude for the magnificent national co-operation which has just accepted these new institutions. (Prolonged acclamations from the crowd and National Guard.)

The Provisional Government of the Republic has only joyful [illegible] to announce to the people here assembled.

Royalty [illegible].

The Republic is proclaimed.

The people will exercise their political rights.

National workshops are open for those who are without work. (Immense acclamations.)

The Army is being reorganized. The National Guards [illegible] itself with the people, so as to promptly restore order with the same hand that had only the preceding moment conquered our liberty. (Renewed acclamations.)

Finally, Gentlemen, the Provisional Government was anxious to be itself the bearer to you of the last decree it has resolved on and signed in this memorable sitting—that is the abolition of the penalty of death for political matters. (Unanimous bravos.)

This is the noblest decree, gentlemen, that has ever issued from the mouths of a people the day after their victory. (Yes, Yes.) It is the character of the French nation which escapes in one spontaneous cry from the soul of its Government. (Yes, yes, bravo.) We have brought it with us and I will now read it to you. There is not a more becoming homage to a people than the spectacle of its own magnanimity.

PROCLAMATION.

The Sovereign People declare,

That the Government having betrayed its trust, is de facto and de jure dissolved.

Consequently

The people resume the full exercise of their sovereignty and decree as follows:

The Chamber of Peers which only represents the interests of the aristocracy, is suppressed.

The Chamber of Deputies, which is the mere representative of privilege, monopoly and corruption, and the majority of whose members have been participators in the unpardonable crime of the Government, which has abandoned the citizens to a murderous fire, is hereby, also, remains dissolved.

The nation, from the present moment, is constituted a Republic.

All citizens should remain in arms and defend their barricades until they have acquired the enjoyment of all their rights as citizens and an open vote.

Every citizen who has attained his majority is a National Guard.

Every citizen is an elector.

Absolute freedom of thought and liberty of the press, right of political and industrial association to be secured to all.

As the Government of the future can only respect the wishes and the [illegible] of all classes, all Frenchmen should assemble [illegible] in the respect [illegible] in [illegible] representatives, in order to elect new and real representatives of the country.

Until the nation has formally declared its will on that head every attempt to restore obsolete powers must be deemed an usurpation, and it is the duty of every citizen to resist any such attempt by force.

Brethren! Let us be calm and dignified, in the name of Liberty, Equality and human Fraternity!

FLIGHT OF THE ROYAL FAMILY.

They proceeded in a boat [illegible] Harbour [illegible] Havre. In the meantime information was secretly conveyed to the Express, Southampton steamship, that she would be required to take a party from Havre to England. The fugitives embarked in the Express, and at 12 o'clock on Friday landed. The moment the King set his foot on the shore he emphatically exclaimed "Thank God I am on British ground." Mr Sims, the leading waiter, who handed them on shore, conducted them to the Bridge Inn.

One, who was present says, A crowd of villagers had assembled near the landing place and when the ex King stepped on shore many of them pressed forward and shook hands with the exiled monarch. The ex King appeared very much moved at this exhibition of feeling, and acknowledged the same in a very courteous manner.

The ex King was very scantily attired. He wore a rough pea jacket, which it is said, he borrowed of the Captain of the Express, and gray trowsers. He had on his head a close blue cloth cap, and round his neck he wore a common red and white comforter. His appearance was not at all improved by his beard, which was apparently about a week's growth. In other respects, though apparently suffering from fatigue, the ex Monarch looked pretty much like himself. The Queen wore a large plaid cloak over her dress and carefully concealed her features with a thick veil.

On the way to the inn the King was met by several of the inhabitants, who offered their congratulations on his safe arrival, and with whom he shook hands most cordially. His Majesty looked fatigued and careworn. The King sent for Mr Packham, who had been a tenant of some estate belonging to him in France, and who knew him intimately. Mr Packham waited on him, and it appears that every attention was paid to his wishes by all parties.

The London Times says, "Learning that Mr Packham was at the Inn, our reporter immediately sought him out, when Mr Packham at once introduced him to his Majesty.

The King who was engaged in reading an English newspaper, immediately rose and said, "I thank you gentlemen, and all whom I have met in England, for these kind congratulations, and the hospitality which has been shown me." His Majesty had changed his attire and was dressed in a plain suit of black. He looked well and the marks of anxiety which had shown themselves at his landing had disappeared. He was quite cheerful. The Queen was in the room writing a letter, and apparently buried in thought. She scarcely noticed the presence of strangers. Several persons were introduced to the King during the day. He greeted gratified at their calling, and spoke freely and pleasantly to all the visitors.

Before Mr Packham left him, the King gave him the whole of the money for the purpose of getting it exchanged for English coin and purchasing wearing apparel, all which, said the King smiling, "I am very short."

Another writer says the ex King granted an audience to several inhabitants from Brighton. They were received most cordially.

Louis Philippe, clasping his hands as if overpowered by his emotion, began immediately to speak on the subject of the Revolution.—"Charles X," exclaimed the ex King, "was dethroned for breaking the Charter and I have been [illegible] upheld it [illegible], and I [illegible] keeping [illegible] will be made known.

The ex King and Queen of the French left [illegible] in a royal carriage [illegible] on Saturday morning, accompanied by several French officers from Brighton, and attended by the Hon Capt [illegible] one of the directors of the Brighton Railway, and they arrived at the Croydon station at precisely twenty minutes past twelve o'clock.

The royal party were then ushered by the directors to the waiting room where they were left to give way in private to those mingled emotions by which they were agitated. After remaining a few minutes together, the royal party intimated their readiness to depart.

Three private carriages were in waiting at the back of the station in readiness to convey the exiled family to Claremont. About a hundred well dressed persons were assembled round the first carriage, eager to catch a glimpse of the King and Queen as they stepped into the carriage. The King made his appearance first, and all present immediately uncovered.

There was no cheering. The reception was cordial but impressive, and was highly creditable to the persons assembled, and might be taken as expressing the feeling of the nation towards the exiled monarch. It was an assurance of hospitality, mingled with sympathy for his misfortunes.

The King was dressed in black trowsers, and a rough [illegible] great coat or seaman's jacket which was given to him by the captain of the vessel which brought him over. He no sooner stepped from the door than he turned round to the persons who lined the passage to the carriage, and shook hands with all who were near him, repeatedly bowing and saying, "Thank you—thank you sir, [illegible]." [illegible] by [illegible] Long live King Louis Philippe. Upon entering the carriage the crowd assembled round the window, and almost every person present had the honor of shaking hands with him. His Majesty looked [illegible] and appeared deeply impressed with the reception which he met with.

The King was followed into the carriage by the Queen who wore a black and white [illegible] shawl, a black figured silk gown and black bonnet. The other members of the royal family having taken their seats in other carriages, the royal party drove off to Claremont, the residence of the late Princess Charlotte and Prince Leopold, now King of the Belgians.

The Duke de Nemours left Paris directly and [illegible] rather [illegible] to [illegible]. The Duke and Duchess Augustus of Saxe Coburg, with whom his royal highness crossed the channel on Sunday.

ARRIVAL OF THE OTHER MEMBERS OF THE FAMILY.

All the other members of the royal family of France, with the exception of the Duchess of Orleans and her children [illegible] have [illegible] arrived in England.

The Duke de Nemours, the Duke and Duchess of Saxe Coburg (Princess Clementine) and the Countess Jaime, arrived in London on Sunday the 27th. The Duke is said to have arrived at Hartwell House severely injured, as he was evidently suffering from severe [illegible], and we regret to say, from their escape from the French capital, [illegible] have been the [illegible] until not the slightest [illegible] was brought so that in fact none of them possess a change of raiment.

On taking their departure from Paris, the Duke de Nemours drew [illegible] by one [illegible] with the Duchess (young [illegible]) by [illegible] intending to meet in [illegible] the rendezvous there appointed. It was not discovered till the Duke reached the [illegible] that the Duchess had not proceeded [illegible] and it appears that she was unfortunately left behind.

American Residents in Paris.

A numerous meeting of the most respectable American residents in Paris took place at the residence of Dr. Draper, Esq. Rue Richelieu, for the purpose of considering the propriety of immediately presenting to the Provisional Government of the French Republic an address declaratory of sympathy and admiration for the conduct of the French people during and after the revolution. The proceedings commenced by G. W. Irvin, Esq., of Massachusetts (formerly chargé d'affaires of the United States to Spain) being called to the chair. After the purport of the meeting was explained from the chair the following gentlemen were nominated as a committee to frame an address to be adopted: Messrs Goodrich, Shannon and [illegible], [illegible] of the [illegible] C[illegible] [illegible] of Connecticut. These gentlemen then retired and after a short delay returned with the [illegible] (a very elegant piece of literary composition) which when read to the meeting was loudly applauded and adopted by acclamation.

On the 1st of March the Provisional Government received a deputation of [illegible] citizens of the United States. These gentlemen walked in procession to the Hotel de Ville, and amongst them was borne the American flag as [illegible] at the French Republic united together, and flowing from the same staff. Mr [illegible] in the name of his countrymen, presented the following address,—

Gentlemen members of the Provisional Government of the French Republic:—As citizens of the United States of America and spectators of recent events in Paris, we come to offer you our congratulations. A grateful recollection of the past and the ties of amity which have existed between our country and yours, prompt us to be among the first to testify to you and to the people of France the sympathy, the respect and admiration which these events inspire. Acknowledging the right of every nation to form its own government, we may still be permitted to felicitate France upon the choice of a system which recognizes as its basis the great principles of political liberty and political equality. In the progress of the recent struggle here we have admired the magnanimity of the French people, their self-command in the hour of triumph, and their speedy return to order and law, after the tumult and confusion of revolution. We see in these circumstances happy omens of good to France and to mankind—assurances that what has been so nobly begun will be consummated in the permanent establishment of a just and liberal government, and the consequent enjoyment of liberty, peace and prosperity among the citizens of this great country. Accept these testimonials of the sentiments which fill our hearts at the present moment and be assured that the news of the revolution which you have just achieved will be hailed by our countrymen on the other side of the Atlantic with no other emotions than those of hope and joy for France and for the world.

M. Arago replied as follows:—

Citizens of the United States,—We are happy to hear the expression of the sentiments which you have just manifested and we are happy such sentiments proceed from the citizens of a free people. We are, above all, happy at the manner in which you appreciate the acts of the Parisian population. You have perceived what courage our fellow citizens have shown in the day of combat, and what moderation they have shown after the victory, you have also seen with what eagerness that people, after having departed from its ordinary sphere, again placed itself under the dominion of its laws.—You have justly declared that a people has a right to give to itself such a government as suits it. Look at your own flag—you behold there the evident proofs of your prosperity, the number of stars which are there displayed has been prodigiously augmented, and will be still more so. (Bravo, bravo!)—What has been so great an advantage to the American population, cannot fail to be so likewise for the French people. (Cheers.) We have no doubt that your fellow citizens in the United States will join in the sentiments which have brought you this day before the Provisional Government. We have no doubt and [illegible] [illegible] there to any other [illegible] (We can answer for that!) [illegible], the prayer that we offer up, and which will be realized, is to see the American nation and the French nation living in the most intimate union. (Loud cheering.) There is no motive of difference between you and us, since that we are established as a Republic, and that we advance in the Republic path of liberty, equality and fraternity. I am convinced that the two nations will be united as are the two colors which you there bear amongst you "Vive la Republique!" (The cry was three times repeated by the deputation.)

One of the American gentlemen then said —

The Americans here present request you to accept these two flags united—they are the eternal emblem of the alliance between France and the United States of North America. [The members of the deputation: "We swear it by our blood!"]

M. Arago: We receive the colors with gratitude; they shall be placed in the Hotel de Ville, and I trust that never will despotism attempt to snatch them thence. [loud applause.]

The double flag was then placed in the Salle des Receptions.

The deputation then withdrew amidst reiterated cries of "Vive la Republique!"

Foreign Policy of the French Government.

The following interesting and important article appears in the *National*, of which the chief editor, M. Marrast, is a member of the Provisional Government:—

It is useful to examine the situation of the French Republic with respect to foreign powers. Never have the relations of nations been so close—never ought the counter blows to be so deeply felt in the west and never have any blows been struck with greater violence than that which has just carried off the dynasty of Orleans, and with it the monarchy. France contemplated at present with admiration and astonishment by all nations, will become their guiding light from the moment that the New Republic shall have surmounted the difficulties which encompass it. Among those difficulties are the foreign relations. Three alternatives are possible. Shall we be attacked? Shall we attack?—Or, lastly, shall we remain in an expectant state? First of all, shall we be attacked? It is only necessary to cast a glance over Europe to comprehend how unlikely that is. Let us take, one by one the three northern powers,—those to whom the events of our three days will be most displeasing,—and let us see what they can really do against us. Austria has in face of her the whole of Italy, which is arming and preparing for the struggle, and which if there was a war against us would be a powerful auxiliary to France. Austria occupies Lombardy, and Lombardy each moment menaces her, and presents with an [illegible] Of the flank of Austria and stretching forth her hand to Italy, is Switzerland radical [illegible] over the Sonderbund and which [illegible] to the popular cause. There from the summit of her mountains, a [illegible] the top of an impregnable fortress she would delay and impede any military demonstration on the part of Austria and would render the situation perilous. Austria has plenty to do to maintain her *statu quo* and consequently it is improbable that she will give the signal of battle. The great German power Prussia is not certainly in the presence of an Italy calling for arms to maintain her liberty, but she has not the advantage of being free in her movements. Who is there that is not aware how much revolutionary and social ideas have advanced in Germany. And who does not [illegible] what an impulse they will receive from the triumph obtained by Paris?—The Prussian Government is about to find itself in presence of the increasing exigencies of that assembly which it consults and if German public opinion of which the voice becomes every day louder and louder. On what grounds could it decide the Germans to invade our frontier and to wage war on us when we do not meddle with them?—We are satisfied with our power glorious of the example which we are giving to the world, proud of the sacrifices which we are making for [illegible] neutral [illegible] [illegible] among [illegible] selves the difficult problems which arise. Never [illegible] will Germany be induced to march against us.

[illegible] in the north, [illegible] of Germany?—And [illegible] she not accepted enough in [illegible] which has not [illegible] [illegible] that [illegible] from the banks of the [illegible]. Let us, then, [illegible] these fears of [illegible] in that respect [illegible] troubled by any remembrance of 1814 and 1815.—[illegible] we had [illegible] [illegible] the people who [illegible] congresses. [illegible] Although the [illegible] our position we are friends of the people and [illegible] kings [illegible] [illegible] on [illegible] matter—shall we attack? That would be a capital fault and thereby we should afford a pretext [illegible] natural [illegible] [illegible] the past would be turned [illegible] our [illegible] [illegible] of nations [illegible] and [illegible] [illegible] [illegible] of the nations which are at present [illegible] [illegible] The [illegible] which brought [illegible] [illegible] and the [illegible] would [illegible] An expectant state then [illegible] [illegible] is the policy which will serve our interests and those of Europe. We shall not [illegible] the [illegible] proceeding—we shall recognise [illegible] [illegible] [illegible] great [illegible] [illegible] intervention [illegible] [illegible] a sufficient [illegible] [illegible] [illegible] and [illegible] But there is a case in which it would [illegible] expect [illegible] would be if Austria, not confining herself to remain on the defensive should of herself attack and invade Italy. Whether she marches on Turin, Rome or Naples, or sends her troops at Piedmont, the French Republic would be under a sacred obligation [illegible] [illegible] to Italy the aid of an army and if [illegible] [illegible] that we consider the Italians as weak and incapable of defending themselves, but the struggle would be doubtful and it is [illegible] that it should not be so. They must permit their friends in France to share their dangers and to pay to Italy a debt of gratitude for all the blood which the Italians have shed in the French ranks.

Violating the Injunction of Secrecy.

The Washington correspondent of the Philadelphia North American says that Mr Secretary Buchanan is suspected of having furnished the correspondent of the Herald with a copy of the Treaty and Mr. Slidell's Instruction for publication. In a telegraphic despatch of Friday evening, the same writer says:

The Committee appointed to investigate into the publication of the treaty and the accompanying documents, met and examined the correspondent who communicated them to the N. Y. Herald. His testimony positively exculpated the Senate, its officers and printer. There was a protracted and excited debate in Executive Session on this subject and the Committee was enlarged to five. Mr Badger withdrew. The Committee now consists of Messrs Bradbury, Westcott, Davis, Underwood and Hannegan. The inquiry will be prosecuted until the fact is definitely fixed. Still I believe it will end in smoke. The suspicion now rests between the Secretary of State, and his superior officer; but public opinion is not greatly divided as to the culpability of Mr Buchanan.

The Maiden Aunt.

We have received from Messrs Geo. R. Smith & Co. a fairly printed and excellent pamphlet copy of this admirable story which for some time, by piecemeal, graced the columns of Sharpe's magazine and from thence transferred to Littles Living Age. It seems good to have it in one convenient and attractive heap. There are a few more copies of the same and to be found at the place whence our copy came.

The Legislature decided that every town should appoint its officers or agents, with special reference to this question. The friends of annexation carried the day.

Suspension of Hostilities in Mexico.

The New Orleans Picayune Extra of March 20th, publishes the official orders, (dated "Head quarters, Army of Mexico, Mexico, March 6, 1848, and number 16 issued by Major General Butler, as commanding officer, providing for a provisional suspension of hostilities between this country and Mexico. The negotiations were conducted by the Senors Quijano and de Mora y Villamil on the Mexican part, and Generals Worth and Persifer Smith upon ours.

The other news from Mexico is unimportant. Gen Cushing was the only member of the Court Martial at Puebla on the 24th of Feby. Thirty one members of the Mexican Congress were at Queretaro on the 21st, the meeting having been called for the 20th.

☞ Among the many blessings attendant upon improvements in the social condition and the advances of our race in intelligence in the present epoch [illegible]. With the increase of knowledge has grown up a knowledge of the elements of health and a regard for them and a commensurately with the strides of science have we acquired the means of arresting disease and averting its ravages. Notwithstanding the progress we have made, statistics show that even now one sixth of the whole population die annually of consumption.

One of the most important discoveries of the age, in ameliorating the condition of this large class of suffering humanity, is

DR WISTAR'S BALSAM OF WILD CHERRY.

What the [illegible] has and recommends will meet our acceptance and confirms, what all men in all places unite in saying is good and valuable, is no doubt. A popularity of this sort fixes in society its roots so deep and so strong that no one cannot destroy it. The success which has attended this medicine for several years past has overcome the prejudice of all respectable men, and the article has taken a stand among the first class of discoveries and blessings of the age, and when resorted to in season, eradicates the disease for which it is recommended.

Chloroform Toothache Drops.

It is well known that "CHLOROFORM" has superceded (in a great measure) the use of Ether, as an allayer of pain, and is now used by the best Surgeons and Dentists in preference. A celebrated Chemist (and one of the first manufacturers of Chloroform) has discovered that "this article" with other simple ingredients will instantly cure the TOOTHACHE. After testing it in many cases it has never failed to give relief—there is no possible danger in using it, as it will not injure the sound teeth a particle. All that is necessary is to saturate these Drops [illegible] a bit of cotton, [illegible] and place it in the cavity of the tooth. Relief will be immediate.

None genuine without the signature of *Ross & Peer* on the Wrapper. Sold at No. 19 Tremont Row, Boston.

CHEAT AND
GROW RICH!

THIS has been the secret principle of too many of the wholesale dealers in teas up to this time and they have practised the most shameful imposition on the country merchant without any fear of detection. But a new era in the Tea Trade has come, and the Pekin Tea Company claims the honor of its introduction. They were the first to raise the banner of reform, on which it has inscribed the simple words—

"Pure Teas at Honest Prices."

A complete revolution has been the consequence. Let consumers of Tea every where look at what we have done.

1st. We were the first to send them Teas that used to be called too good for them before.

2d. We have driven out of the market a vast amount of trash and introduced a better class of teas than has yet ever been sold. Importers of Tea often come to us to get for their own use and for their friends fine qualities they can find no where else.

3d. We have reduced prices more than 25 per cent., both in Black and Green Teas. The wholesale grocers say we are running the trade and call us humbugs. This we have done already and now see what we are ready to do.

1st. We will sell Teas by the single chest, half chest or 14 pound box at the same prices that wholesale grocers pay to the importers when they buy by the hundred packages.

2nd. The wholesale grocers allow only 13 or at most 14 pounds tare to the half chest. This is a cheat. We will allow in most instances, 18 and 16 pounds tare on the same.

3d. We hereby undertake to sell every kind of tea from six to twelve cents per pound cheaper than the wholesale grocers do.

How can we do this, asks the country merchant? This is our answer. We are content with 7 per cent. profit, instead of 25 and 50 per cent., as is wholesale grocer.

We deserve the thanks of the country merchants for saving them hereafter from being cheated. Let them come to the warehouses of the Pekin Tea Company and compare samples of [illegible] they get elsewhere, [illegible] [illegible] [illegible] [illegible] at high prices, [illegible] [illegible].

As [illegible] [illegible] [illegible] [illegible] [illegible] that he could [illegible] [illegible] [illegible] by selling bad teas to the New York market than on good teas. We are resolved to overthrow this fraud, and now call upon agents in every town in the United States to come forward and buy the teas imported by the Pekin Tea Company and we pledge ourselves [illegible] six months they do not sell more tea than the oldest and largest dealers in the town, we will [illegible] our tea without charge. [illegible] cannot be misunderstood. We [illegible] to the common success of our age [illegible] any part of the United States.

Agents wanted in every town in the United States for the sale of these teas, by which they can make money and confer a benefit upon the public by supplying the pure article.

RECOMMENDATIONS.

Heretofore it has been very difficult to get unimpeachably to always obtain good green [illegible] black teas. But now you have only to [illegible] the [illegible] rooms of the Pekin Tea Company 75 and [illegible] to get as delicious and fragrant teas as you could wish for.—*Dial* [illegible].

We have tried the teas imported by the Pekin Tea Company 75 and 77 Fulton st. New York [illegible] if we like we will try them [illegible]. They are [illegible] the most delicious [illegible] ever drank [illegible] [illegible].

It is a privilege to buy teas at this great establishment and a luxury and a comfort to drink them.—They sell good teas only, and retail them at wholesale prices. Country merchants [illegible] [illegible] always sell good teas can always obtain them at this place on reasonable terms.—[Courier & Enquirer.

The Pekin Tea Company, 75 and 77 Fulton st., are performing a great and good work and will in a few years drive all the poor teas which have deluged this country and defrauded consumers of the article out of the market. They import none but pure and fragrant teas and retail them by the single pound at wholesale prices. Families are always sure of obtaining good teas at this great tea warehouse in quantities to suit their convenience and at the same price they can buy [illegible] [illegible] to sell again.—[Daily Times.

The Pekin Company sell a delicious Oolong tea at 50 cts. per lb. Consumers of tea who have been paying 6s per lb for this article are requested to compare it with the above and judge for themselves which is the best. If you can buy a better tea at 4s per lb than you have been getting at [illegible] will be obliged to us for this notice. The Young Hyson sold at this great tea establishment at 75 cts. It is better than any thing [illegible] have ever bought at one dollar.—[Commercial Advertiser.

Many of our readers desire to have good teas they can obtain it of the Pekin Tea Company.—[Mercury.

Pekin Tea Company.—We very cheerfully call the attention of all lovers of pure and fragrant tea both in town and country to the great tea warehouse of this company. Our long acquaintance with the proprietors enable us to bespeak for them the entire confidence of the public. We know that their teas both in quality and price are all that is stated of them. Many a lover of the [illegible] herb has been compelled to eschew the [illegible] of tea in consequence of its injurious effects. [illegible] length he has become hopeless of finding [illegible] any of the imported varieties of teas in our market a kind which had not such an effect. In this [illegible] ever such persons will be agreeably disappointed. The Pekin Tea Company have commenced the importation of choice varieties of garden teas of [illegible] delicious flavor cultivated and picked with great care, which have heretofore never been introduced into this country except as presents to import. Among these they have an Oolong of [illegible] [illegible] and fragrant [illegible] which we speak [illegible] [illegible] recommend to all nervous persons. [illegible] all can here be suited with the great advantage over [illegible] of getting a pure article [illegible] [illegible] however small the quantity.—[Golden Rule.

The Pekin Tea Company unquestionably sell the best teas imported into this market. [illegible] sell them cheaper than any other establishment [illegible] a fact proven in a thousand instances. [illegible] have opened their store. We would advise our friends to call at this place and if they do not [illegible] to buy at least to obtain a little pamphlet kept on their counter entitled "Hints to Tea Drinkers" and therefrom learn a little useful information on the subject. The pamphlet is given gratis.—[Journal of Commerce.

We drink green tea, and for many years have been paying one dollar per lb for it, but the best the Pekin Tea Company [illegible] we now get [illegible] from them at 75 cents per pound. We drink one pound per week by which we are now saving [illegible] dollars a year and enjoying better tea. Commend us to the Pekin Tea Company say we.—N. Y. Mirror.

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use we feel confident in recommending them as combining more advantages than any other Wheel for perpendicular Shafts now used
As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A BEARD Esq, Civil Engineer —Lowell Mass who is well known as one of the most scientific and experienced practical Engineers in this country

This wheel is formed with curved floats the number depending upon the size and vent of the Wheel each extending so far around the Wheel that when the water arrives at the jets its pressure is so far expended that it falls very nearly inert from the Wheel The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head the column being sustained by the stationary plate underneath the Wheel so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided and so much of the power saved, which in the ordinary mode of operation is wholly lost
This Wheel is adapted to low as well as high heads of water and will run as well in back water as out of it providing the head rises in a freshet as fast as the back water But a Wheel with the jets rightly gauged for a high head will not answer for a low one, and vice versa for as the head increases the width of the jets should be proportionably decreased so that the water may not run to waste, and not give its best effect to the Wheel
"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, is less liable to need repairs, easily adjustable when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop—Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel
ITHAMAR A BEARD, Civil Engineer"

Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Ralph

DEAR SIR—I have myself almost no occasion for your inestimable Pills I have used them any six years as occasion dictated, and I have reason to suppose they have wrought a thorough and permanent change in respect to the condition of the stomach From habitual costiveness, and the vomiting of nauseous and slimy stools, I am complete ly relieved The multifarious symptoms of Dyspepsia with which I was once too well acquainted have so entirely passed away, that I hardly know that they were Any use you can make of this or a more full developement of my case is at your service
Except in an obstetric case your book (Family Physician) and Pills have been the only physician in my house for six years
There are many of my friends around and more and more who call for your Pills as a family medicine, and for chronic cases Yours truly,
Horatio Waldo.

The Great Remedy for Gonorrhœa

GLEET, Stricture, and all analogous complaints, is Dr DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union, during the last 40 years His only reason of introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks
Dr D most solemnly affirms that during his practice of forty years this Paste has never in one single instance failed of effecting a cure in a few days without any change of diet or hindrance from business He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged entirely cured
If the unfortunate instead of drugging themselves with quack nostrums would purchase only one box of the Arabian Paste we should not see so many emancipated bodies and sallow countenances as we do at the present time
☞ In case this Paste should fail to effect a cure in the shortest possible time ten times the price paid for it will be given the purchasers on returning the empty boxes
For sale only by the original inventor and sole proprietor Dr PETER G DOUGLASS at his Office No 55 Union street Boston at $5 per box where he can be confidently consulted on every disease incident to the human frame and the patient rely upon the most beneficial course of treatment that can possibly be adopted

DISEASES OF THE Throat and Lungs.

COUGHS and Colds the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy and many other dangerous diseases, are too often neglected until the foundation of the Specific Complaint is laid deep in the System A Physician is then called in, who administers a few Palliatives, but declares the disease incurable, and the Patient in the language of his opinion *dies* But why does he die? Simply because the disease is cannot to the proper remedy, but treats the mere *agu dead* of a Practitioner rather than the infallible in cure of experience and the most authentic testimony On this ground is the only true one, the efficacy of

DR. VONDERSMITH'S INDIAN COUGH BALM and Lung Balsam,

have been thoroughly established. Let those who doubt read the following testimonials which are merely samples of hundreds of the same nature.

CONSUMPTION AND AFFECTION OF THE LIVER, CURED, Of Twenty Years Standing!

CITY of New York, July 21st 1847

This is to Certify that I, Nelson Larrabee of Jersey City, have been subject to a dry hacking cough and pain in the side and chest, attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLE CONSUMPTIVE, and the advice of regular physicians without the many celebrated remedies I have taken have been of any permanent benefit and I was yielding hopelessly to the progress of my disease, when I was recommended to try Dr L W VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the aid of which, all my symptoms have been removed and I have been wonderfully restored to the blessings of health and the prospect of a prolonged existence. In gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate

INFLAMMATION OF THE LUNGS

New York June 19 1847

DR. VONDERSMITH—I have been subject to a cough, pain in the chest, difficulty of breathing, &c, for many years past. About four months ago I took a severe cold which has settled on my lungs, I was unable to attend to my business during the day I had bad spells at night, I thought I could not possibly survive until I could obtain relief. The night sweats had reduced my whole body to a skeleton. I expected death would occur, in fact, should I give the full particulars, it would be almost incredible. I was recommended to try Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. Accordingly when I had used it about one week, my cough decreased, and after this, which gave me great hopes. I continued with the medicine according to direction, and the result has been that I am restored to health and strength. I have not been confined for weeks, until the present time. I earnestly believe had I not made use of Dr V's invaluable Medicine that I should be mouldering in the silent grave. Therefore I believe that I am doing nothing but justice in stating the above facts so that you may have it to all the afflicted who may call upon you to the matter to them. I shall be pleased at any time to converse with the afflicted who may call upon me

CONSUMPTION

STATEN ISLAND, June 10th, 1847

DEAR SIR—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucous Some days I raised a half pint of mucus, streaked with blood. I have been under the treatment of six dozen physicians, was recommended to Dr. Morel of Philadelphia, to use a breathing tube, I purchased one, I only made use of it for one week, it was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to assist my wife, we continued to decline I was advised to consult a physician who recommended Dr Vondersmith's Medicine, which I had tried in my case about a dozen bottles, I received great benefit from that, which I believe purchase a dozen bottles, I took according to the directions and received a new life every hope.

DR. UPHAM'S

Vegetable Internal Remedy FOR THE PILES!

☞ A Cure for Life Secured. ☜

For the cure of Piles, Inflammation of the Liver and Spleen, Jaundice, Severe Irritation of the Stomach Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Spine and for the relief of Married Ladies.

THE VEGETABLE ELECTUARY,

invented by Dr A Upham a distinguished Physician of New York City, is the only really sure remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this, it is an INTERNAL REMEDY—not an external application and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent*. It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Used for over sixteen years in 2 to 3 cases per dose, it is very mild in its operation, and may be taken in cases of the most acute inflammation without danger—All external applications are in their nature unsafe, and disagreeable and offensive, and for the very nature of the case are temporary in their effects. This Medicine attacks the disease at its source and by REMOVING THE CAUSE renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet the proprietor finds it the cure for all other internal diseases of the blood and mucous membranes and for Inflammation and Congestion of the Liver and Spleen, Inflammation of the Bladder, Irritation of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism, it is the Best Medicine ever discovered

IMPURITIES OF THE BLOOD

For all impurities of the Blood, arising from the imprudent use of Mercury or other causes, for all diseases of the Skin, and Nervous Affections, in all cases where the blood is powerfully determined to the head, producing dizziness and distress DR UPHAM'S ELECTUARY is entirely unrivalled

TO MARRIED LADIES.

Married Ladies are almost invariably subject to that painful and dangerous disease, the PILES, with cause of a constipation of the Stomach, Bowels and Spine, weakness of the back &c. Dr Upham's Electuary is perfectly safe for Pregnant Ladies, and the most useful cathartic that can possibly be used, as it will not only remove the Piles but will insure a safe delivery, WITHOUT PAIN or IRRITATION, but will ensure an easy time, a safe delivery, and a sound constitution to the offspring

CURE FOR LIFE GUARANTEED

The Electuary contains NO MINERAL Medicine no Aloes, Colocynth Gamboge or other powerful and irritating purges. No fear of taking cold while under its influence, no change in diet necessary. If taken according to directions, A CURE FOR LIFE IS GUARANTEED

Pamphlets giving valuable information respecting the Medicine may be had of Agents, gratis

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland Me., March 14, 1847.

Dr. UPHAM—My dear Sir,— cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been afflicted many years to the Bleeding Piles for 10 years past so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs My eyes also became affected, and in fact I was a misery to myself. I was obliged to give up my business I had tried all kinds of medicine, had the best advice the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations. I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of you medicine. The first I found to relieve me slightly, still I persevered, and purchased a second and I assure you, when I got half through, I found myself getting well, still I kept on, and now I am a well man. My dear Sir, language cannot express the heart felt thanks that I am once more restored to health, and now in a condition to support my large family, dependent on me.

You can use this letter as you please.

Yours respectfully, SAMUEL GRAFTON.

Dr. Townsend's SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body It is one of the very best Fall and Winter medicines ever known it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 20,000 of these were considered incurable

More than 3000 cases of Chronic Rheumatism,

2000 cases of Dyspepsia,

4000 cases of General Debility and Want of Energy,

7000 cases of the different Female Complaints,

2000 cases of Scrofula,

1500 cases of the Liver Complaint,

2500 cases of Diseases of the Kidneys and Dropsy,

6000 cases of Consumption,

and thousands of cases of diseases of the blood, viz—Ulcers, erysipelas, saltrheum, pimples on the face, &c &c, together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c &c

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures R Van Buskirk, Esq, one of the most respectable druggists in Newark N J informs us that he can refer to more than 150 cases in that place alone There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character It is the best medicine for the preventative of disease known It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease and prepared them for the summer season It has never been known to injure in the least the most delicate child

RHEUMATISM

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen

☞ Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford Conn The following is an extract of a letter received from him

Dr Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject from an injury occasioned several years ago in a public stage Please send me two bottles to the care of Dr Seymour I have conversed with two of our principal physicians and recommended your Sarsaparilla. CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured Bronchitis Consumption Liver Complaint, Colds, Catarrh, Coughs, Asthma Spitting of Blood Soreness in the Chest, Hectic Flush Night Sweats Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured

Dr Townsend—Dear Sir: Near twenty years ago I took a violent cold which settled on my lungs, and affected me severely; indeed finally it became a constant hacking cough, but not so severe as to prevent me from attending to my business Within the last few years it increased on me gradually At last it has me reduced—I breathed with difficulty, and raised with my cough much bad matter and for the last three months previous to my using your Sarsaparilla had regular night sweats, indeed, my friends and myself supposed that I would die with the Consumption, but I have the happiness to inform you that to my surprise, after using three bottles of your Sarsaparilla I find my health restored It relieved me gradually, and I am now enjoying much better health than I have before in 20 years I had almost entirely lost my appetite, which is also returned You are at liberty to publish this with my name in the papers, if you choose

My little girl, who is three years old, had a very bad cough the whole of last Winter We became very much alarmed on her account. While using the medicine I gave her some of it and it soon entirely relieved her, as well as myself and she is well now and hearty, as any child I ever saw She was also full of little blotches, it took them away, and her skin is smooth and fair now, and I am satisfied she recovered her health from using your excellent medicine

S. W. CONANT, 444 Bowery

GIRLS, READ THIS.

You who have pale complexions, dull eyes, blotches on the face, rough skin and are "out of spirits" use a bottle or two of Dr Townsend's Sarsaparilla It will cleanse your blood remove the freckles and blotches and give you animation, sparkling eyes fine spirits, and beautiful complexion—all of which are of immense value to unmarried ladies,

GREAT FEMALE MEDICINE

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhoea or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident

Nothing can be more surprising than its invigorating effects on the human frame Persons subject to weakness and lassitude from taking it, at once become robust and full of energy under its influence It immediately counteracts the nerviousness of the female frame which is the great cause of barrenness

It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring

Dr. Townsend My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public M D MOORE

Albany, Aug 17 1847 Cor Grand and Lydius sts

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all of the delicate diseases to which women are subject It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation—which is the case of most medicine taken for female weakness and disease

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood Three persons cured in one house is unprecedented.

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores, have taken some four bottles, it took them away, for which I feel myself under deep obligation. "From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations On trial of them in my own family and some of them personally I have more than realized these favorable anticipations,—they are, what they profess to be scientifically prepared and compounded I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap* and, in fact, all the popular preparations of Mr Hauel

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends and the public They are, in their way invaluable

From DANIEL J DESMOND, Esq, Attorney at Law, Consul General of Pontifical States, Vice Consul of Austria Sardinia, Portugal and Tuscany.

"To Mr JULES HAUEL.

Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations On trial of them in my own family and some of them personally I do positively declare that they are what they profess to be skilfully prepared and compounded I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste — I am fully satisfied of their intrinsic worth and do heartily recommend them to all for the use and purpose they are intended Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative It invigorates the hair and promotes its growth The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition—it does not smart or irritate the skin; while the Nymph Soap operates beautifully upon the pores of the skin and cleanses it from all impurities The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay They are in their way invaluable.

"I have seen some of my friends who have used your Vegetable Liquid Hair Dye, its effect is really a wonder It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful, and none will detect the artificial colors as it has not one! Yours &c. DANIEL J DESMOND.
